## Review:

*Miles and miles of the sweetest single track you'll find. When climbing the often brutal hills remember what comes up must come down - and when it comes down on flowing sniggle what's not to love?!*

Source: **Northern Beaches MTB**

*The main loop is a 15km ride. The Snaketrack is a well known highlight - a fun, fast, flowing 2km descent. You can ride up the adjacent fire trail and down the Snake Track for as many times as your energy allows!*
